Bluetooth® hands-free car kit with DialogPlus voice control and touchscreen

You expect a state-of-the-art hands-free kit to offer excellent sound quality, be easy to use, and ensure you stay safe on the move. And with a touchscreen and the new DialogPlus voice control system, the CC 9060 does just that. The speaker-independent DialogPlus voice control has a unique word recognition system which is both fast and highly accurate. However complicated a name sounds, however quickly you say a telephone number, the CC 9060 responds to your voice immediately – and isn't affected by background noise.

- DialogPlus voice control – fast and accurate word recognition; no voice training required; visual and audio prompts
- Easy-to-use system with intuitive 2.8-inch touchscreen
- Voice dialling
- Text-to-speech – reads text messages out loud*
- Multiple Call Handling – swap and hold calls, conference with up to 7 participants*
- MP3 playback from mobile phone over car's hi-fi system*
- Automatic call answering available
- Display shows contacts, call log, reception quality, handset model and name of network provider*
- Can store multiple numbers for one contact
- Maximum capacity: 10 handsets, 1000 text messages, 150 voice tags, 15,000 contacts
- Crystal-clear voice reproduction via vehicle's built-in sound system; automatic radio muting when calling
- Light sensor automatically switches between day and night mode, with a choice of colour schemes available for each

*The scope of the functions may vary according to mobile phone, network provider and software version.

Display-adapter with DialogPlus voice control and touchscreen connecting unit from the UNI System 8

Voice control that's systematic! True to this motto, the innovative DialogPlus voice control is now also available for the seasoned and time-proven UNI System 8. Setting the voice control unit up is as simple as can be: the AD 9060 is fitted with a click into the hang-up of the base set, e.g. UNI CarTalk, and then connected to the mobile phone via Bluetooth. Along with other features, it's possible to display your phone book entries on the display immediately and to dial them using voice commands. This means that the UNI System 8 achieves a new dimension in terms of ease of use and driving safety.

Key Features:

- DialogPlus voice control – fast and accurate word recognition;
- no voice training required; visual and audio prompts
- Easy-to-use system with intuitive 2.8-inch touchscreen
- Bluetooth® connection between mobile phone and connecting unit
- Voice Dialling
- Text-to-speech – reads out text messages and phone book entries aloud[1]
- Multiple call handling – swap and hold calls, conference with up to 7 participants1
- Automatic call answering available
- Display shows contacts, call log, reception quality, handset model and name of network provider, etc.[1]
- Stores multiple numbers for one contact
- Maximum capacity: 10 handsets, 1000 text messages, 150 voice tags, 15,000 contacts
- Light sensor automatically switches between day and night mode, with a choice of colour schemes available for each
- Patented: Quick and easy snap-in mounting of the connecting unit

Bury CC9060 Music Hands free Car Kit - Made for Ipod - Iphone - Iphone 4

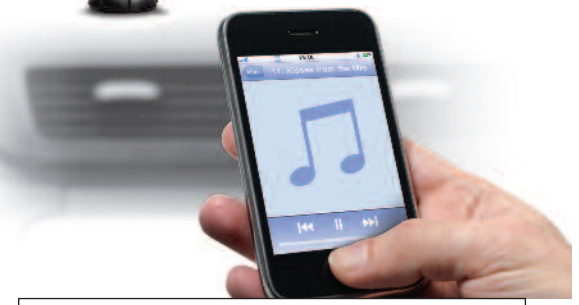
The Bury 9060 Music is Burys brand new trendsetting Bluetooth hands free car kit offering excellent sound quality, connectivity option for the Apple iPod or iPhone and is extremely easy to use to ensure you stay safe on the move.

With a touch screen and the new Dialog-Plus voice control system the kit has Crystal-clear sound & a cutting-edge design. Just say what you want it to do and the 9060 Music will perform the task.

The 2.8 inch touch screen is extremely sensitive and the device displays a straightforward menu system. Call quality is excellent which enables clear and audible conversation. This also enhances one of the other outstanding features of the 9060 Music, text to speech. Whilst paired to compatible handsets, the kit will read out your text messages to you.

One of the best features of the THB Bury Music is the option to pair two phones simultaneously, making it the ideal handsfree car kit for business users or family/friends who want to make the most out of the wireless Bluetooth technology. The DialogPlus voice control on the THB Bury Music is extremely accurate thanks to its rapid reaction word recognition. It requires no voice training, making it one of the most powerful and advanced Bluetooth kits on the market.

The THB Music also has a connectivity option for the iPhone or iPod and music playback can be controlled from both the hands free car kit and the Apple devices. The music voice selection feature also allows the user to select song, artist, album, genre etc via voice command or the intuitive 2.8-inch touchscreen.



Key Features:

- Superior audio quality via built-in 4 channel, 15 Watt amplifiers and the use of the vehicle's own sound system
- MP3-playback from mobile phone also possible via A2DP[1,2]
- Perfect quality voice and music playback thanks to 4 integrated power amplifiers and the use of the vehicle's own sound system
- On board fade and balance controls
- Multipoint-function – simultaneous connection of two mobile phones to the system is possible
- Voice memo function – record telephone calls and leave behind instructions for other drivers
- Automatic radio mute function when calling
- Multiple call handling – swap and hold calls, conference with up to 7 participants[1]
- Automatic call answering available
- Display shows contacts, call log, reception quality, handset model and name of network provider, etc.[1]
- Stores multiple numbers for one contact
- Maximum capacity: 10 handsets, 1000 text messages, 150 voice tags, 15.000 contacts (up to 1,500 contacts per phone)
- Charges iPod / iPhone
- Light sensor automatically switches between day and night mode, with a choice of colour schemes available for each
